No. 04 - November 2015

Are your ex tools up to standard?

To brighten up the winter period, KC-ProSupply and BIRODAN offer the i.safe INNOVATION 2.0 EX smartphone at a reduced price for a limited campaign.

Besides all the standard features you know from ordinary smartphones, the i.safe INNOVATION 2.0 can be used in potentially explosive areas (ex zone 1/21) such as liquefied petroleum gas plants. The i.safe INNOVATION 2.0 lets you take photos and record video in ex areas, and offers a variety of other functions as well.
We offer a range of different models and brands, but the campaign applies exclusively to the i.safe INNOVATION 2.0.

Winter campaign price **1,149.00 €** (the standard price is 1,295.00 €)

No more running out of gas!

E-book: 8 reasons for using a vaporizer

Are you getting your money's worth on your LPG equipment? Secure your profit year after year by getting a vaporizer.

Give this e-book a read and learn our **8 compelling reasons** for installing a vaporizer.
Maybe you didn't know that the stable pressure provided by a vaporizer can prevent your equipment unexpectedly shutting

You know that feeling when the gas flame dies out half way through the day's work?

It's not only annoying, it's also totally unnecessary. In a matter of seconds, the GASLEVEL indicator can let you know how much gas is left in your cylinder and whether it's time to buy a new one. In other words, it's the end of unexpectedly running out of gas.

I want to learn how the GASLEVEL indicator works »

down or producing less energy than required, which is a probable risk when relying on natural vaporization.

Curious about the remaining 7 reasons and the prospect of saving some hard-earned money?

Read the e-book on vaporizers in its full version here »
