Joint Forces in the LPG System Supply Chain

Effective 11th January 2012 Kosan Crisplant a/s (KC) with headquarters in Denmark has acquired long-time partner Crisplant (M) Sdn Bhd (CPMA) in Malaysia.

The agreement strengthens KC as a global market leader and as the number one supplier of systems and services to the LP gas cylinder filling business in Malaysia and throughout Asia Pacific. The two companies together give the Asian Pacific market a more focused coverage and support the mutual vision of being close to all customers.

Max Skjold, Director of CPMA, expresses satisfaction after completing the deal with KC. *"Having worked in this business for 32 years – the past 15 years as KC's partner in Malaysia – I wish to express my sincere thanks to all clients and business relations who have placed their confidence in CPMA over the years. I see great opportunities for our future business in the region with the new setup",* he says.

At KC, CEO Anders C. Anderson is optimistic about the obvious synergy effects that come with the agreement. *"We match each other well, as KC's innovative technology and CPMA's fine-tuned service setup and in-depth knowledge of the Asian Pacific market form a strong, top class solution provider in Malaysia with a unique profile unmatched by others"*, states Anders C. Anderson.

Both KC and CPMA are strongly focused on process optimization, service and logistics from the gas filling plants to the end-users. Customers are both large gas companies with high demands to efficient and reliable operation as well as minor gas suppliers with a strong local circulation and depending on prompt response from their service provider.

About Kosan Crisplant

KC is a project-oriented company that supplies flexible plants and systems for filling and maintenance of gas cylinders (LPG) and offers after-sales service and facility management. Established 1951 Kosan Crisplant has now supplied over 2,400 plants all over the world. The Kosan Crisplant Group is a market leader with a share of 45%.

About Crisplant (M)

CPMA is a private company with head office in Kuala Lumpur, Malaysia, and today is the leading service provider to the gas cylinder filling industry in Malaysia.
